

Emergency Call for Nurses.

There is a very great need for nurse, both at the Emergency Hospital and in private homes to care for influenza cases. The lives of the victims of this disease depend upon their receiving care and it must be given them. With proper precautions nurses can handle these cases and avoid contagion for themselves. Funds have been provided for the payment of ample salaries to those who volunteer for this work. Nurses, either men or women, who have had some experience in nursing are especially desired. Instruction will be given others who may volunteer so that they can render at least some assistance in this crisis. North Platte is faced with a serious situation which can only be properly handled if the community responds to the call for volunteers. We cannot obtain help from any other towns as their resources are all needed at home. We must depend upon ourselves and we must be prepared to give our sick the proper care. If you cannot give all of your time to this very important work but can give part of it, volunteer for that. We must have nurses and we must have them at once. Persons who will respond to this call are requested to phone E. J. VanDerhoof, Chairman of the Committee on Nurses at once.

Now is the right time to lay in your winter supply of outing flannels. Plain white, greys and fancies on sale at THE LEADER MER. CO. at 18c, 20c, 25c, 27½c and up. Big line to select from.

A conference of district officers and county chairmen of the United War work drive was held last evening at the Union Pacific dining hall. Reports from the different counties showed that preparations for the campaign were progressing finely and indications are that each county in this district will at least raise its quota if not go over the top. L. C. Carroll who attended the conference in Chicago gave a report of that meeting.

FIRST NATIONAL BANK. Judge Grimes finds court business very light in his district this fall. At the regular fall terms in Kimball, Deuel and Keith counties he heard all the cases coming up for trial in one day's time in each county. The term at Lexington week after next promises, however, to be rather heavy, and the docket for the December term in this county is large.

Don't put off buying your winter blankets on sale at THE LEADER MER. CO. at last season's prices. Our big cash purchase of over a year ago enables us to do this.

A big bunch of questionnaires in which the registrants made claims for exemption were sent to the district board at Omaha yesterday by the local board.

Dr. Morrill, Dentist.

T. L. Carroll for Representative.

Editor Tribune: Permit me to call the attention of the voters of North Platte and vicinity to the candidacy of my father, T. L. Carroll, of Gothenburg, for representative for the district covering Lincoln, Keith and Dawson counties.

Mr. Carroll is a business man. He has been engaged in the lumber, grain and coal business for the past thirty years at Gothenburg and is fitted in every way to properly represent this district in the legislature. We have in this district the farmer, the laboring man and the business man. No candidate is worthy of your support who is not fitted to represent all of these classes and no candidate should get your vote who attempts to array class against class. He is a patriotic American citizen, born in the United States, and his loyalty is above question.

His opponent is a Mr. Higgins, a man who, I have been reliably informed, has been a charter member of every new political faction that has sprung up in Nebraska and whose rights to be enlisted under the banner of the democratic party are subject to serious question. I am told that his campaign is being conducted from the office of his son-in-law, J. H. Edmisten, who is also handling the senatorial campaign of his son-in-law, Mr. Leavitt. A sort of a family affair, by marriage, as it were.

The circulars sent out by Higgins' faction seem to consist of knocks aimed at the Council of Defense, the Home Guards and business in general. It would, in my estimation, be nothing short of a crime to elect a man who would subscribe to such statements.

Mr. Carroll is accused of owning this mill in a way that would indicate that that was some sort of a crime. If it is a crime to be a miller he is not guilty. He has no interest of any sort in our mill. I appeal to my friends, both democratic and republican, for your votes for Mr. Carroll for representative.

Gold Under the City.

A Philadelphia assayer recently took several handfuls of sand from a street excavation near Independence hall and after putting it through an assaying process extracted a small quantity of gold. He declared that, in his opinion, there was enough gold under Philadelphia to make hunting for it worth while.

Why Called "Bloodhounds."

Bloodhounds were first known as southhounds, owing to their ability to track the deer, wild bear or the wolf. When the wounded game broke away and was lost these good-nosed dogs were used in tracking the quarry by the blood trail, and hence they were finally called bloodhounds.

Increased Sugar Allowance.

County Food Administrator Goodman received a wire yesterday from the state administrator that effective today the allowance of sugar to householders per person per month could be raised to three pounds, and further that the month's supply could all be purchased at one time. This does not mean that sugar should be used unnecessarily; if the household does not really require three pounds per person per month they should not purchase the maximum quantity.

Endorses Judge Letton.

Editor of Tribune: On Tuesday we vote for three supreme court judges; but few people know all the candidates.

One of the candidates is Charles B. Letton, who is now a member of the supreme court.

I have known Judge Letton all my life. I knew him as a lawyer at Fairbury, Nebraska, when I was a boy, latter he was elected district judge and after that supreme judge. He was always held in the highest esteem by all the people who knew him in that community. I know he is a good man, lawyer and judge.

You will make no mistake by voting for Judge Letton.

Swat the Machine!

THE Hitchcock-Mullen-Gooch Machine, which dominates Nebraska politics today, has repeatedly thwarted the expressed will of the people. It is the servant of the booze interests. It is entirely out of sympathy with the principles of government of the people, by the people, and for the people.

S. R. McKELVIE has been an aggressive and fearless opponent of the machine in this campaign. His election will mean the return of representative government to Nebraska. A vote for McKelvie is a vote against the machine.
